

Free Public Lecture

# ***Adventures in Southwest Geology***

**Exploring the colorful southern Colorado Plateau in 3-D**

**By Philip Stoffer, Geologist**

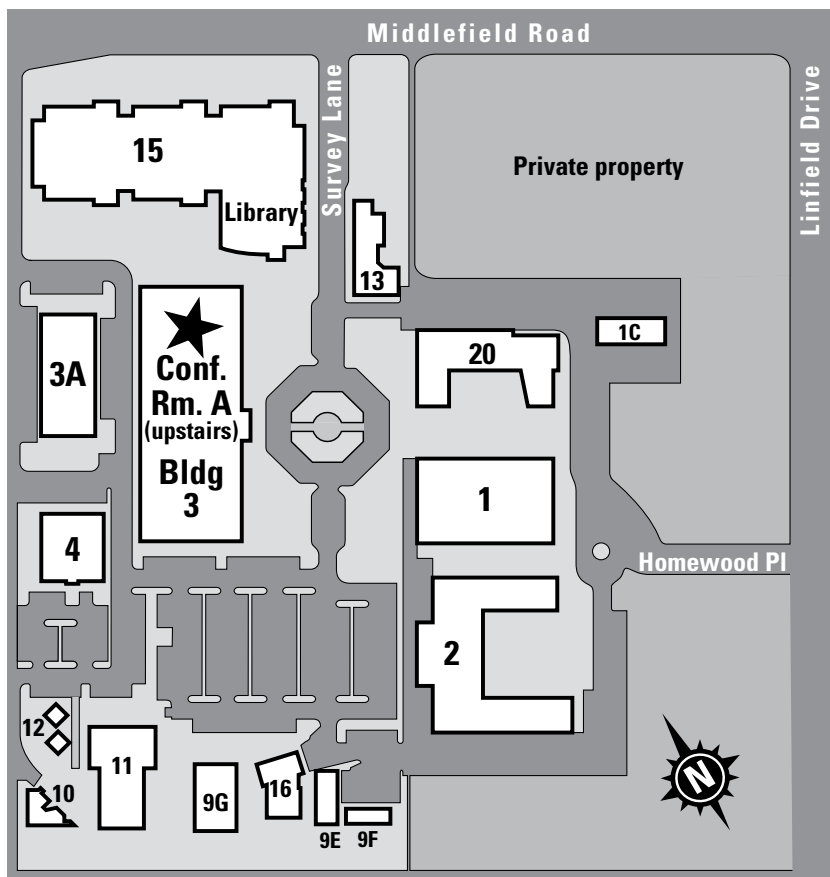

***Take a colorful tour with the help of 3-D photography through some of the region's highlights:***

- A plethora of parklands-Petrified Forest, Chaco Canyon, Wupatki, Grand Canyon
- High desert climate changes, past, present, and future
- Colorado River history: a river ran through it, but where?
- Desert life and death—and dunes
- Earth history laid bare: volcanoes, mountain-building, erosion

**Thursday, June 28, 2007, 7:00 p.m.**  
**U.S. Geological Survey**  
**Conference Room A, Bldg 3,**  
**Menlo Park, California**

## Directions to USGS Menlo Park Science Center

The campus of the USGS Menlo Park Science Center is located at 345 Middlefield Road in Menlo Park. From San Francisco, exit highway 101 at Marsh Road, Atherton and go west to the T junction of Middlefield and turn left (south). From San Jose, exit highway 101 at Willow Road, Menlo Park, go west to the intersection with Middlefield, and turn right. Enter the USGS campus at Survey Lane (the main driveway, with large stone markers labeled "U.S. Geological Survey"). You may park in any of our parking areas and walk to Building 3 (see campus map at right).

## Free public lecture at U.S. Geological Survey

(Save trees and money, receive lecture flyers by e-mail:
